

English Week (May 2-5)

After two years of lockdown, the annual English Week was finally held on May 2-5. This year's theme is **Celebrations!** It's because "*Life should not only be lived; it should be celebrated*". A different famous quote was explained each day to encourage everyone to **celebrate** life and grow together. On top of that, idioms & phrases related to **celebratory** occasions were taught.

Every morning, a team of student MC would fill us in on various games & activities of that day. They even demonstrated the actions required in the game Running Dictation for S1 & 2.

Each recess was given to Song Dedication with student DJs reading out messages received from students.

Highlight of each day was the lunchtime activities designed for different levels.

To reinforce what idiom students should have learnt that day, they were to say the idiom of the day as they left school in *Say the Password* activity. [photos]
