

Gigantic scrabble

Each class was required to send five representatives to play scrabble on a huge size of scrabble board on the playground. The students were tasked with forming words using the letter tiles provided and strategically placing them on the scrabble board to earn points.

The activity was met with great enthusiasm and excitement from the students, who eagerly participated and demonstrated their competitive spirit. It was heartening to see the students work together and support each other throughout the game, cheering on their classmates and strategizing as a team.

"Gigantic Scrabble" provided an opportunity for our students to engage in a fun and interactive learning experience outside the classroom. It challenged them to think creatively, expand their vocabulary, and improve their communication skills, all while generating excitement and interest in learning English.

We would like to extend our heartfelt thanks to the teachers and staff who organized and facilitated this activity. Their tireless efforts and dedication to our students' education and growth are greatly appreciated, and we are grateful for all that they do.
