

Speech Festival

This year, a total of twelve S1 to S3 students joined the 73rd Hong Kong Schools Speech Festival. They participated in the Solo Verse Speaking Non-open, in which the poems 'What for', 'Hill Rolling' and 'Fishbones Dreaming' were selected.

Due to COVID-19, the 73rd Speech Festival adopted a new mode of participation where students were asked to record their performances instead of doing live ones. Knowing their performances would be recorded, students still recited the poems and practiced hard so as to achieve satisfactory results. After one month of intensive practices, their performances were recorded on 11th November. It is hoped that their talent and hard work will be paid off.
