

## **Theme for English morning assembly 2022-2023: Diligence and Responsibility**

Nice to have our English morning assembly back!

The theme for this year is 'Diligence and Responsibility'. Here, we are not just talking about students' roles in school and family. It is also about the responsibility towards our environment, our Mother Earth and our society, Hong Kong.

Through our tailor-made passports, the message is expressed through poems, songs, articles, as we not only want our students to receive the message but also to be exposed to different language arts.

In the assembly, it is not just teachers sharing messages, we also provide a platform for our students to use English in presentation, in the form of drama, songs or poems--English groups of F. 1 to 5 have to take turns to perform either through pre-recorded video or live performance. We believe students can explore their potentials and talents effectively by using English in activities.

Hence an English activity will be assigned to all students on Wednesday and they need to interact with teachers in English to get a signature on their passports during recesses and lunch time. It's not uncommon to see students queueing up to show teachers what they have learnt!
